

StoneL Model 604488, 604558, 604559, 604560, 604561

General Description

The Power Demo Connector and cordset accessories enable rapid set-up for popular Axiom models. Operate the solenoid valve and power up/set switches rapidly and conveniently using the quick connect cables. All connection systems are designed for quick attachment without tools or special fixturing.

Power Demo Connector (604488)

The Power Demo Connector cord may be used by itself for set up of the AMI33 with the 5-pin mini connector or with the auxiliary connectors.

Cordset Options (604558, 604559, 604560, and 604561; use with power demo connector 604488)

Four (4) cordsets (auxiliary connectors) are available for use with the power demo connector. The cordsets provide specific connector options for use with AMI33 and AMI44 units with single or dual coil terminal strip connectivity or with A11 and A15 quick connector options.
