

Drop connectors (DIN)

Model number
DR465047A
Switch protected

Multi-drop connector (6 drops)

Drop connectors provide a reliable, safe method of connecting slave devices to the bus cable. Protected drop connectors limit the current passing from the bus to the drop leg to prevent fault conditions on the drop from affecting the bus. DIN rail mounting is standard.

Switched protected

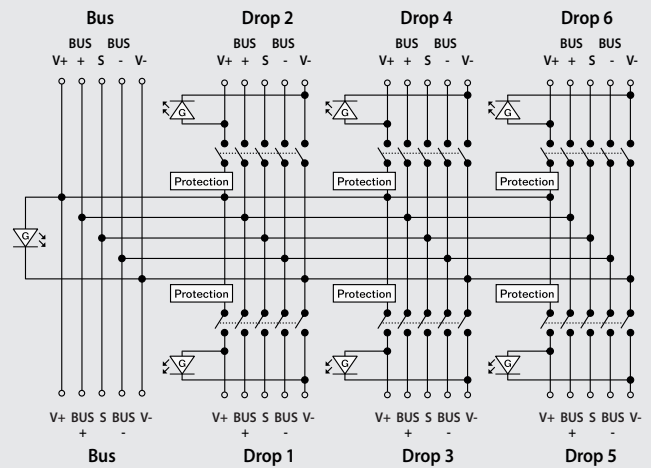

- Disconnects each drop
- Short circuit protection on the power leg
- LEDs indicate drop fault, bus power, and drop power status
- Automatically resets when drop fault is cleared
